ABOUT ME

I'm a Backend Node.js Developer driven by the challenge of building powerful and efficient server-side applications. My MERN stack proficiency, particularly in Node.js and database optimization, allows me to create robust solutions. I also leverage NestJS for modern development practices and have experience with Shopify integrations, adding value to e-commerce platforms.

EDUCATION

• Bachelor of Engineering Computer Engineering	Gujarat Technological University	2021 - 2025	CGPA 8.49 / 10
---------------------------------------------------	----------------------------------	-------------	-------------------

WORK EXPERIENCE

- **Lucent Innovation, Jr. Software Engineer** Jan 2025 - present
 - **Iconic:** Order, exchange, return, and inventory management application with Shopify integration. Manages e-commerce orders for three flagship stores (Iconic, Gant, True Religion) and multiple outlets across India.
 - **Sadad** (Shopify Custom Payment Method): Integrated secure payment workflows, enabled merchants in the Middle East region to accept local payments seamlessly.
 - **Earnify** (Affiliate Loyalty & Rewards Platform): Built commission tracking module preserving historical rates, implemented role-based access and real-time dashboards for influencers and merchants.
- **Mayur Web Technology, MERN Developer Intern** March 2024 - Sept 2024
 - **Let's Chat:** MERN + Socket.io real-time chat with JWT authentication.
 - **Media Library:** MERN + Multer + Cloudinary (serves as a centralized hub where users can manage and access images).

TECHNICAL SKILLS

- **NodeJS, ExpressJS, NestJS, TypeScript, ReactJS, GraphQL, WebSocket, Shopify, Webhook, Shopify Extension, OOP, Version Control, Debugging, MongoDB, SQL, Sequelize, TypeORM.**

PERSONAL PROJECTS

- **Blockchain based Log System**
 - **Ethereum Blockchain + React + Solidity:** Revolutionizing log management with blockchain, Implemented a tamper-proof and auditable log system using blockchain technology. This ensures data integrity and provides a transparent record of all activities.
- **Vente**
 - **E-Commerce Platform:** NestJs, React, TailwindCSS, JWT, Redux, MongoDB and SQL, TypeORM, RBAC
 - **Customer features:** product browsing, cart, checkout, order tracking, return/exchange requests, profile & address management.
 - **Admin features:** order processing workflows (auto/manual), returns & exchanges management, inventory alerts, and sales analytics.
 - **Super Admin features:** centralized control of products, inventory, locations, admins, and activity logs with advanced analytics dashboards.

CERTIFICATIONS

- | | |
|-------------------------------------------------|---------------------|
| • Blockchain Fundamentals & Ethereum | Infosys Springboard |
| • NodeJS | Scaler |
| • Postman Student Expert | Postman |
| • Java | HackerRank |
| • Git | Udemy |
| • AWS Beginners | Scaler |

AWARDS / ACHIEVEMENTS

- **Winner – Hack-TON-BERFEST 2023, TON Blockchain Open Source Contribution.**
- **Shining Bright Early Award (Q2 2025) – Recognized at Lucent Innovation quarterly awards for outstanding contributions as a Backend Developer.**
